# ALPHA-OMEGA PRODUCTIONS

4514 S Pennsylvania • Oklahoma City, Ok. 73119 • 682-0504

## ***Randy Lusk Photographer***

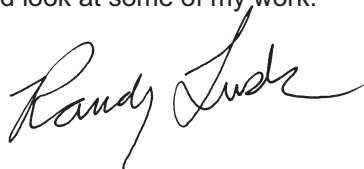

Whether you are an experienced model looking to upgrade your portfolio, or just getting started in the field and want an entire portfolio made you can count on Alpha-Omega Productions to give you the finest in glamour and modeling photography. We also specialize in high quality head shots in black & white or color, and fine art prints.

Our basic coverage includes studio lighting, a variety of backgrounds, and four clothing changes with 1 hour of camera room time. The deluxe coverage would add unlimited clothing and hair changes with up to 2 hours of camera room time. Come in and enjoy our relaxed atmosphere and take all of the time that you need in the dressing room. We only schedule one model per day, so you will not be rushed at all.

We use the finest in computer technology and digital cameras, so you will be able to see the images that we shoot before you leave on a hi resolution monitor, and if you like we can print you out a contact sheet of all of the photos taken. Come in and see our exciting new computer enhancements and retouching. What this means to you is that minor imperfections, pimples, scars, dark circles under the eyes, etc. Can all be touched up and enhanced on the computer!

We also can print comp cards and digital laser copies of your prints, at a substantial savings to you when true photo quality is not necessary.

If you are a serious about modeling, or would just like a glamour photo taken of you for a gift, something that we guarantee will get you noticed, call me today for an appointment or come by and look at some of my work.
